Components	Poor (1)	Moderate (2)	Good (3)	Excellent (4)	Score
Abstract/Summary (5 Marks)	Several major aspects of the experiment are missing; student displays a lack of understanding about how to write an abstract	Abstract misses one or more major aspects of carrying out the experiment or the results	Abstract references most of the major aspects of the experiment, some minor details are missing	Abstract contains reference to all major aspects of carrying out the experiment and the results, well written	
Introduction (5 Marks)	Very little background information provided or information is incorrect	Some introductory information, but still missing some major points	Introduction is nearly complete, missing some minor points	Introduction is complete and well written; provides all necessary background principles for the experiment	
Objective (5 Marks)	The objectives of the experiment are erroneous or irrelevant.	The objectives of the experiment are partially identified or vague.	The objectives of the experiment are mostly identified.	The objectives of the experiment are clearly identified and well stated.	
Experimental Procedure (10 Marks)	Missing several important experimental details	Missing some important experimental details	Important experimental details are covered, some minor details missing	All experimental details are covered	
Results: data, figures, graphs, tables, etc. (30 Marks)	Figures, graphs, tables contain errors or are poorly constructed, have missing titles, captions or numbers, units missing or incorrect, etc. Important calculation steps (if any) are missing.	Most figures, graphs, tables OK, some still missing some important or required features. Some important calculation steps (if any) are missing.	All figures, graphs, tables are correctly drawn, but some have minor problems or could still be improved. All-important calculation steps (if any) are included but minors error is present.	All figures, graphs, tables are correctly drawn, are numbered and contain titles/captions. All important calculation steps (if any) have been included and accurately presented.	
Discussion (30 Marks)	Very incomplete or incorrect interpretation of trends and comparison of data indicating a lack of understanding of results.	Some of the results have been correctly interpreted and discussed; partial but incomplete understanding of results is still evident	Almost all of the results have been correctly interpreted and discussed, only minor improvements are needed	All-important trends and data comparisons have been interpreted correctly and discussed, good understanding of results is conveyed	
Conclusions (5 Marks)	Conclusions missing or missing the important points	Conclusions regarding major points are drawn, but many are misstated, indicating a lack of understanding	All-important conclusions have been drawn, could be better stated	All-important conclusions have been clearly made, student shows good understanding	
References (5 Marks)	References are listed in wrong format. References are not cited in the text. No reference cited	Some references are cited in the text and listed in a references cited section, however, formatting is incorrect for all references, or insufficient or inappropriate eeferences are used.
