DESCRIPTION OF COURSEWORK

Course Code	COM204
Course Name	Engineering Graphics
Lecturer	Chew Kit Wayne
Academic Session	2022/04
Assessment Title	Assignment II

A. Introduction/ Situation/ Background Information

In Assignment II, students are required to draw solid models and produce drawings in the form of isometric and orthographic projections using Autodesk Inventor software.

B. Course Learning Outcomes (CLO) covered

At the end of this assessment, students are able to:

CLO 2 Demonstrate ability to draw orthographic projections and section using computer aided drawing (CAD) method.

CLO 3 Demonstrate ability to draw two and three dimensional drawings using CAD method.

C. University Policy on Academic Misconduct

1. Academic misconduct is a serious offense in Xiamen University Malaysia. It can be defined as any of the following:
   i. **Plagiarism** is submitting or presenting someone else's work, words, ideas, data or information as your own intentionally or unintentionally. This includes incorporating published and unpublished material, whether in manuscript, printed or electronic form into your work without acknowledging the source (the person and the work).
   ii. **Collusion** is two or more people collaborating on a piece of work (in part or whole) which is intended to be wholly individual and passed it off as own individual work.
   iii. **Cheating** is an act of dishonesty or fraud in order to gain an unfair advantage in an assessment. This includes using or attempting to use, or assisting another to use materials

that are prohibited or inappropriate, commissioning work from a third party, falsifying data, or breaching any examination rules.

2. All the assessment submitted must be the outcome of the student. Any form of academic misconduct is a serious offense which will be penalized by being given a zero mark for the entire assessment in question or part of the assessment in question. If there is more than one guilty party as in the case of collusion, both you and your collusion partner(s) will be subjected to the same penalty.

D. Instruction to Students

ASSIGNMENT FORMAT

1. There are three drawings in Assignment 2. Students must use Inventor to complete all three drawings.
2. For each drawing project, student must submit 3 important files:
   a.) 3D solid models (.ipt file)
   b.) Isometric and orthographic projections (.dwg file)
   c.) Print-out version of file b) (.pdf file)
   ** There will be 9 files (3 .ipt + 3 .dwg + 3 .pdf) in total for submission of the 3 drawings.*
3. For .pdf and .dwg files, the drawing must have
   - Dimension labels
   - Name/Title label
   - Isometric and Orthographic projections
   - Suitable scale must be used (Drawing objects must cover more than 70% of printing sheet area)

SUBMISSION FORMAT

1. Submit the 9 files in ONE ZIP file with zip folder name: COM204_A2_<STUDENT ID>
2. Submission mode: Submit at Moodle drop box
3. Email title: COM204_A2_<STUDENT ID>
4. **Submission deadline: WEEK 14 Friday**
   ***Late submission penalty: 20% of total mark**
   ***Plagiarism penalty: 0% of total mark**

E. Evaluation Breakdown

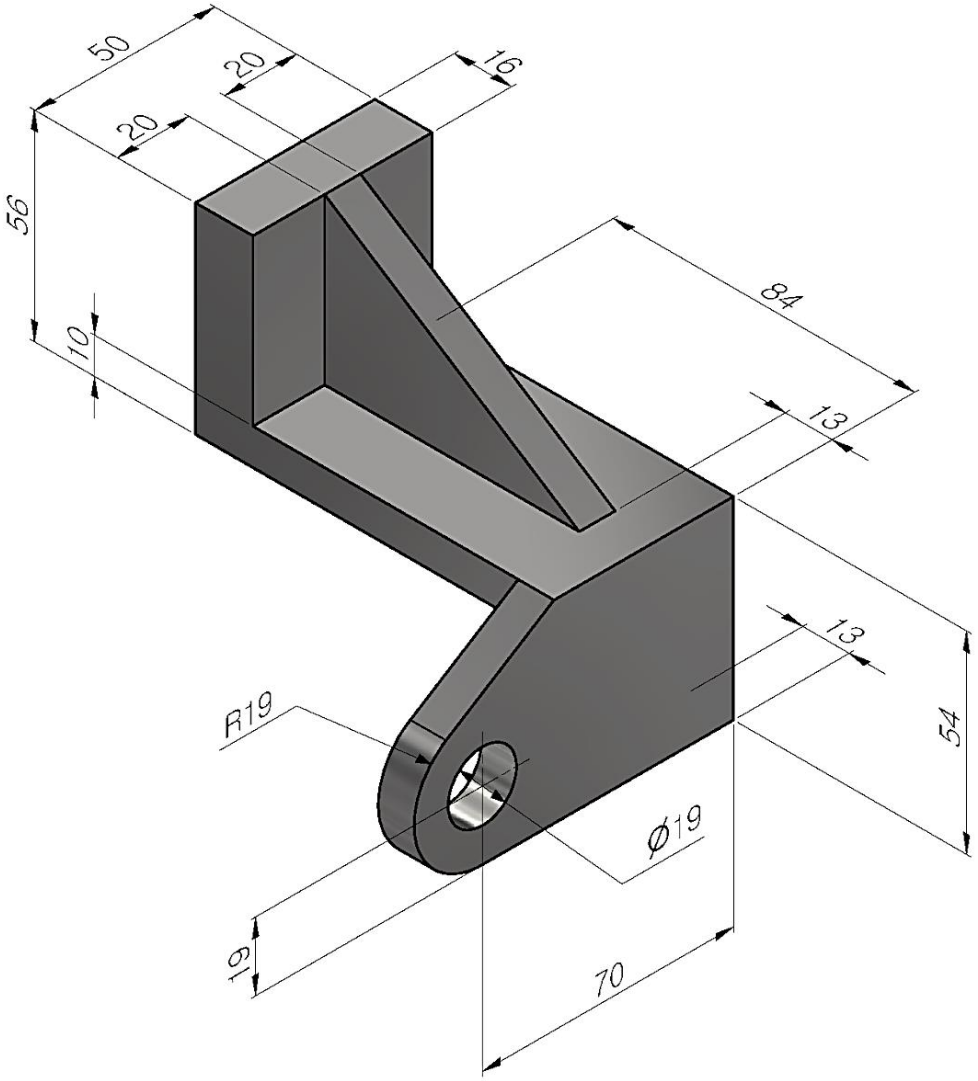

No.	Component Title	Percentage (%)
1.	Drawings x 3	30
	TOTAL	**30**

F. Task(s)

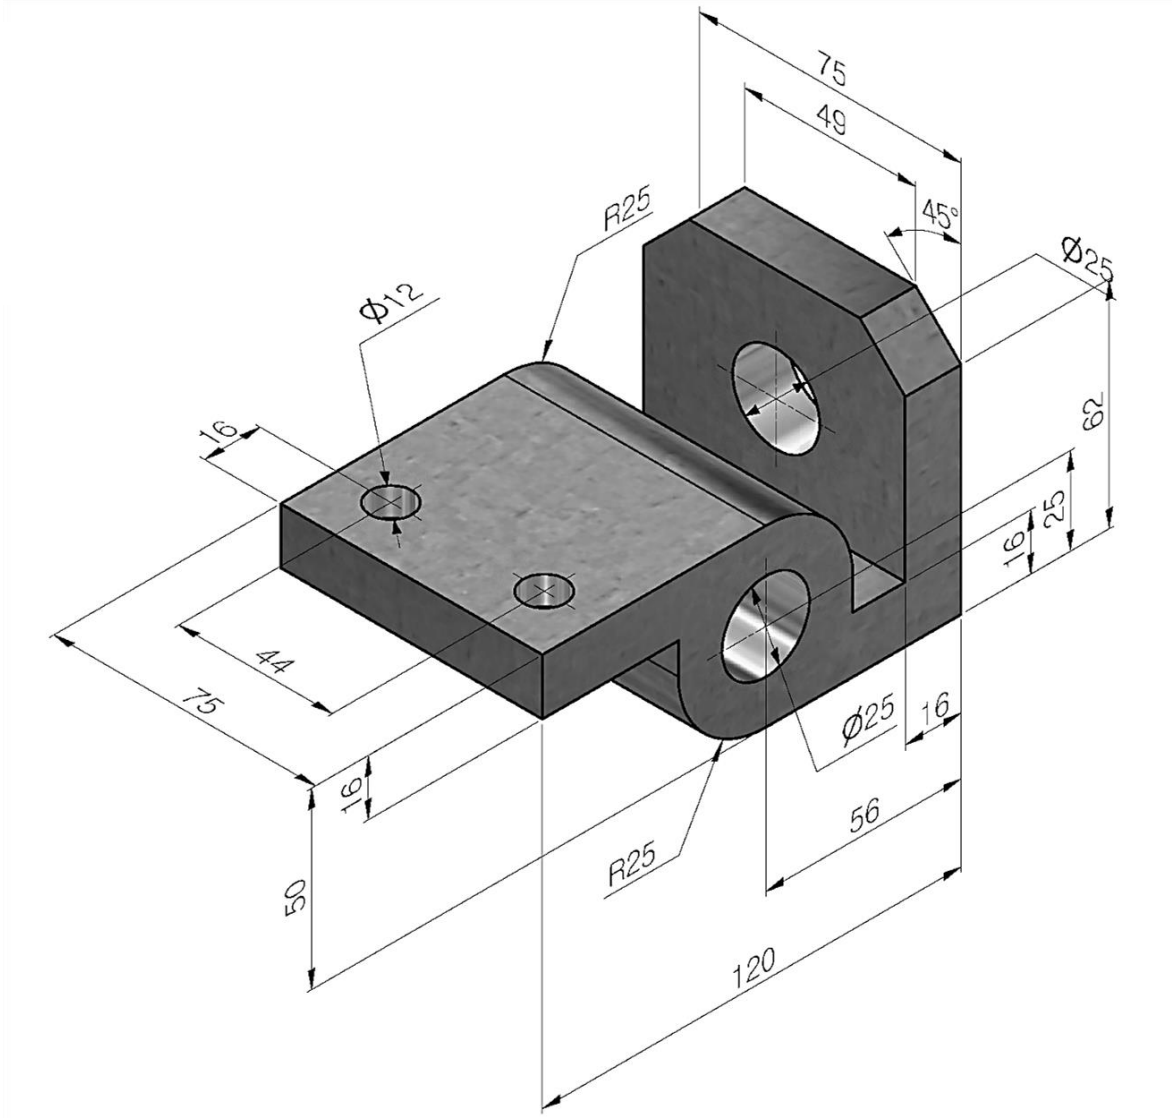

Draw all three drawings in orthographic and isometric projections (30% TOTAL)

*All dimensions are in mm unless stated otherwise

APPENDIX 1

MARKING RUBRICS

Component Title	**Assignment II**			**Percentage (%)**	**30**	
Criteria	**Score and Descriptors**				**Weight (%)**	**Marks**
	Good (4)	**Average (3)**	**Need Improvement (2)**	**Poor (1)**		
i. Clarity of design (CLO 1)	The drawing fully describes the intent of the designer. Drawing is clear and reflects what the product is	Drawing is clear and reflects what the product is.	Drawing is clear but not reflective of what the product is.	Drawing is not clear and is not obvious about what the product is.	**60**	
ii. Proper line types (CLO 2)	Able to understand, set and use all the line types appropriately. All line types are drawn correctly.	Able to set the class and use the line types correctly. 1-2 lines on the drawing are incorrectly used	Able to understand and set the line type in the class but unable to use it correctly. 3-4 lines on the drawing are incorrectly used.	No rules were followed. Unable to set the line class. Did not use the correct line type or weight	**20**	
iii. Proper size and scale (CLO3)	Drawing has an excellent appearance. Space is used to display the final drawing in a professional manner. Drawn to scale. The title block is fully edited.	Accurate print area is selected. Space is used to display the final drawing in a professional manner. Drawn to scale. The title block is only 80% completed.	The title block is only 50% completed. Space is used properly to display drawing.	Information about the drawing and the designer is not provided. Not drawn to scale. Not drawn correctly. Incorrect print areas selected.	**5**	
iii. Dimensions (CLO 3)	All important dimensions are shown on the drawing. Dimensions are correct	80% of the dimensions are done correctly.	50% of dimensions are done correctly.	Improper and/or unnecessary dimensioning.	**5**	
iii. Orthographic projections (CLO 3)	All views are projected correctly.	Minor mistake	1 view is projected incorrectly.	All views are projected but incorrectly.	**5**	
iii. Complexity (CLO 3)	Different types of lines including curve, straight line, etc are included.			Only straight line with simple drawings are presented.	**5**	
				TOTAL	**100**	

Note to students: Please print out and attach this appendix together with the submission of coursework
