Academic Session	2022/09

A. Introduction/ Situation/ Background Information

From Chapter 1, students learned about myth number three that entrepreneurs are motivated primarily by money. Social entrepreneurship combines a social mission with entrepreneurial activities (Asebi et al., 2019). In other words, social value creation is the main objective of the venture, while creating economic value (i.e. generating income from commercial activity) is considered a necessary but not sufficient condition.

An excellent example of social entrepreneurship is Mr. Tan Kah Kee, the founder of Jimei University, Xiamen University and 118 schools https://singaporetkkf.com.sg/biography/ . therefore, entrepreneurship is a method to solve problems (Sarasvathy & Venkataraman, 2011).

i. **Plagiarism** is submitting or presenting someone else's work, words, ideas, data or information as your own intentionally or unintentionally. This includes incorporating published and unpublished material, whether in manuscript, printed or electronic form into your work without acknowledging the source (the person and the work).

ii. **Collusion** is two or more people collaborating on a piece of work (in part or whole) which is intended to be wholly individual and passed it off as own individual work.

iii. **Cheating** is an act of dishonesty or fraud in order to gain an unfair advantage in an assessment. This includes using or attempting to use, or assisting another to use materials that are prohibited or inappropriate, commissioning work from a third party, falsifying data, or breaching any examination rules.
