DESCRIPTION OF COURSEWORK

Course Code	EEE202
Course Name	Engineers and Society
Lecturer	Ir Dr Ab Halim Bin Abu Bakar
Academic Session	04/2025
Assessment Title	Assignment 2: Natural Resources and Sustainable Development

A. Introduction/ Situation/ Background Information

The technology development has significant impact on engineering practice

B. Course Learning Outcomes (CLO) covered

At the end of this assessment, students are able to:

CLO 3 Analyze the key issues in the use of natural resources and sustainable development in engineering practices.

.

C. University Policy on Academic Misconduct

1. Academic misconduct is a serious offense in Xiamen University Malaysia. It can be defined as any of the following:
   i. **Plagiarism** is submitting or presenting someone else's work, words, ideas, data or information as your own intentionally or unintentionally. This includes incorporating published and unpublished material, whether in manuscript, printed or electronic form into your work without acknowledging the source (the person and the work).
   ii. **Collusion** is two or more people collaborating on a piece of work (in part or whole) which is intended to be wholly individual and passed it off as own individual work.
   iii. **Cheating** is an act of dishonesty or fraud in order to gain an unfair advantage in an assessment. This includes using or attempting to use, or assisting another to use materials that are prohibited or inappropriate, commissioning work from a third party, falsifying data, or breaching any examination rules.
2. All assessments submitted must be the student's own work, without any materials generated by AI tools, including direct copying and pasting of text or paraphrasing. Any form of academic misconduct, including using prohibited materials or inappropriate assistance, is a serious offense and will result in a zero mark for the entire assessment or part of it. If there is more than one guilty party, such as in case of collusion, all parties involved will receive the same penalty.

D. Instruction to Students

i) Discuss the topics aspects using evidence or literature

ii) Cite and include a list of all resources or references used in your presentation

iii) Evaluation Breakdown

No.	Component Title	Percentage (%)
1.	Understanding of topics	10
2.	Information	20
3.	Use of facts	20
4.	Analysis	20
5.	Organization	10
6.	Presentation Skills	20

iv) Task(s)

1. The safety of a company's employees is a priority for many professionals in management or leadership roles. One way to discuss with employees is to ask safety questions that assess them understanding of proper safety measures in the workplace more productive and safer for everyone. who work there.

   Illustrate the general duties of an employer and an employee.

2. Compare the difference between Heinrich and Bird and Loftus theory of accidents

3. Determine how an accidence or dangerous occurrences can be notified

   (a) Non-Electrical.

   (b)) Electrical.

4. Determine the top-down process of Risk Management

APPENDIX 1

MARKING RUBRICS

Component Title	**Engineering Practice**				**Percentage (%)**		
Criteria	**Score and Descriptors**					**Weight (%)**	**Marks**
	Excellent (5)	**Good (4)**	**Average (3)**	**Need Improvement (2)**	**Poor (1)**		
Understanding of Topic	Excellent understanding of the main points of topic in depth	Good understanding of the n main point of the topic	Satisfactory understanding of the main points of the topic	Poor understanding of the main points of the topic	Not able to understand the main point of the topic	10	
Information	All information presented was clear and thorough	Most information presented was clear and thorough	Most information presented was clear but not thorough	Some information was clear but there were some minor inaccuracies	Information had some major inaccuracies or was not clear	20	
Use of Fact	Every major point was well supported with several relevant facts, statistic and/or examples	Every major was adequately supported with relevant facts statistics and/or examples	Every major was supported with facts statistics and/or examples but the relevancy of some was questionable	Some points were supported with relevant acts statistics and/or examples	All points were not supported with relevant acts statistics and/or examples	20	
Analysis	All arguments were relevant with strong evidence	Most arguments were relevant with moderate evidence	Several arguments were relevant with sufficient evidence	Most arguments were irrelevant and weak evidence	All arguments are irrelevant and no evidence	20	
Organisation	All arguments were clearly related to an idea and well organized in logical order Opening statement engages the interest of audience and closing statement leaves no unanswered issues and resonates with the audience.	Most arguments were clearly related to an idea and well organized in logical order Opening statement engages the interest of audience and closing statement summarizes many arguments	Some arguments were clearly related to an idea and well organized in logical order Opening statement outlines or lists argument but does not generate interest and close statement briefly restates the ideas offered in the	Most arguments were not clearly related to an idea and organized in logical order Opening statement minimally outlines arguments and closing statement does not reflect remarks	Arguments were not related to an idea. Opening statement has no outlines arguments and closing statement does not reflect remarks	10	

			opening statement				
Presentation Skills	Good body posture and eye contact with audience throughout the presentation, deliver the presentation at a pace that helps audience understand the contents and using difference tones which completely capture audience's attention	Good body posture and most of the time maintain eye contact with audience throughout presentation, deliver the presentation at a pace that helps audience understand the contents and sometime using difference tones which capture audience's attention	Good body posture but less eye contact with audience throughout presentation, deliver the presentation at slightly fast pace that makes audience understand the contents and sometime using different tones which do not capture audience's attention much	Bad body posture most of the time and less eye contact with audience throughout presentation, deliver the presentation at fast pace that most of the time makes audience confuse about the contents and using Bad body most of the time and less eye contact with audience throughout presentation, deliver the presentation at fast pace that most of the time makes audience confuse about the contents and using monotone tone which does not capture audience's attention at all	Bad body posture no eye contact with audience throughout presentation, deliver the presentation at a very fast pace that makes audience confuse about the contents and using monotone tone which does not capture audience's	20	
						TOTAL	**100**
