APPENDIX 1

MARKING RUBRICS

Component Title					Percentage (%)		
Criteria	Score and Descriptors					Weight (%)	Marks
	Excellent	Good	Average	Need Improvement	Poor		
Quality and Depth of Research	Demonstrates comprehensive and in-depth research, utilizing a wide range of relevant and reliable sources, including academic journals, government reports, and industry publications. Shows a strong understanding of the research topic and its context.	Demonstrates good research, utilizing relevant and reliable sources. Shows a good understanding of the research topic.	Demonstrates adequate research, utilizing a sufficient number of sources. Shows a basic understanding of the research topic.	Demonstrates limited research, with some sources that may be irrelevant or unreliable. Shows a limited understanding of the research topic.	Demonstrates very poor or insufficient research, with minimal or inappropriate sources. Shows little to no understanding of the research topic.	**25**	
Strength and Clarity of Analysis	Provides insightful, original, and well-supported analysis of the impact of US tariffs on ASEAN green energy development. Identifies key trends, patterns, and relationships, and offers logical interpretations and conclusions.	Provides sound analysis of the impact of US tariffs, with supporting evidence. Identifies relevant trends and patterns, and offers reasonable interpretations and conclusions.	Provides adequate analysis of the impact of US tariffs, but may lack depth or originality. Identifies some trends and patterns, and offers some interpretations and conclusions.	Provides limited analysis of the impact of US tariffs, with weak or insufficient evidence. May miss key trends and patterns, and offers limited or unclear interpretations and conclusions.	Provides very poor or no analysis of the impact of US tariffs. Fails to identify relevant trends or patterns, and offers no logical interpretations or conclusions.	**30**	
Effectiveness of Data Visualization	Creates highly effective, original, and visually appealing graphs, charts, and infographics	Creates effective graphs, charts, and infographics that accurately represent the data.	Creates adequate graphs, charts, and infographics that represent the data. Visualizations	Creates limited or ineffective graphs, charts, and infographics. Visualizations may be poorly	Creates very poor or no data visualizations. Visualizations are inaccurate, misleading, or absent.	**15**
