XIAMEN UNIVERSITY MALAYSIA

ONLINE FINAL EXAMINATION

Course Code:	COM204		
Course Name:	Engineering Graphics		
Question Paper Setter:	Chew Kit Wayne		
Academic Session:	2022/04	Question Paper:	A ☑ B ☐
Total No. of Pages:	3	Time Allocated:	2 hours
Additional Materials:	-		
Apparatus Allowed:	-		

INSTRUCTIONS TO CANDIDATES

1. This paper consists of 3 Questions (A, B and C). Answer all questions.
2. Please follow the requirement of each section and type in all the corresponding answers on the downloadable answer book provided.
3. Communication between candidates in any means is forbidden. Answers must be entirely individual candidate's independent effort. If you are found sharing your solutions with other candidates, or suspected of doing so, you would be penalized accordingly.
4. Each question should have one drawing file (PDF) and one software file: (.dwg for 2D and .ipt for 3D)
5. All drawing files must be named using the following format: COM204_Question number_Student ID [e.g. COM204_Q2_EEE2109999]
6. Submission will be done at Moodle. If Moodle is down during exam time, submit your files to kitwayne.chew@xmu.edu.my.

(Student ID: _____ Full Name: _____)

QUESTION A

Construct the orthographic projections of the objects shown in Figure 1 below using hand drawing (to scale) on an A4 paper. The orthographic projections must include top view, side view and front view (indicated by arrow). Provide proper dimensioning for the drawing. [CLO1-PLO1, 36 marks]

- All the dimensions are given in millimetre. Use pencil, ruler and drawing compass to create your illustration. Please include your student ID, question number, course code and name in the layout. Place a simple indication of length from 1 - 5 cm (as shown below) at the bottom left corner of your drawing paper.

Indication: 

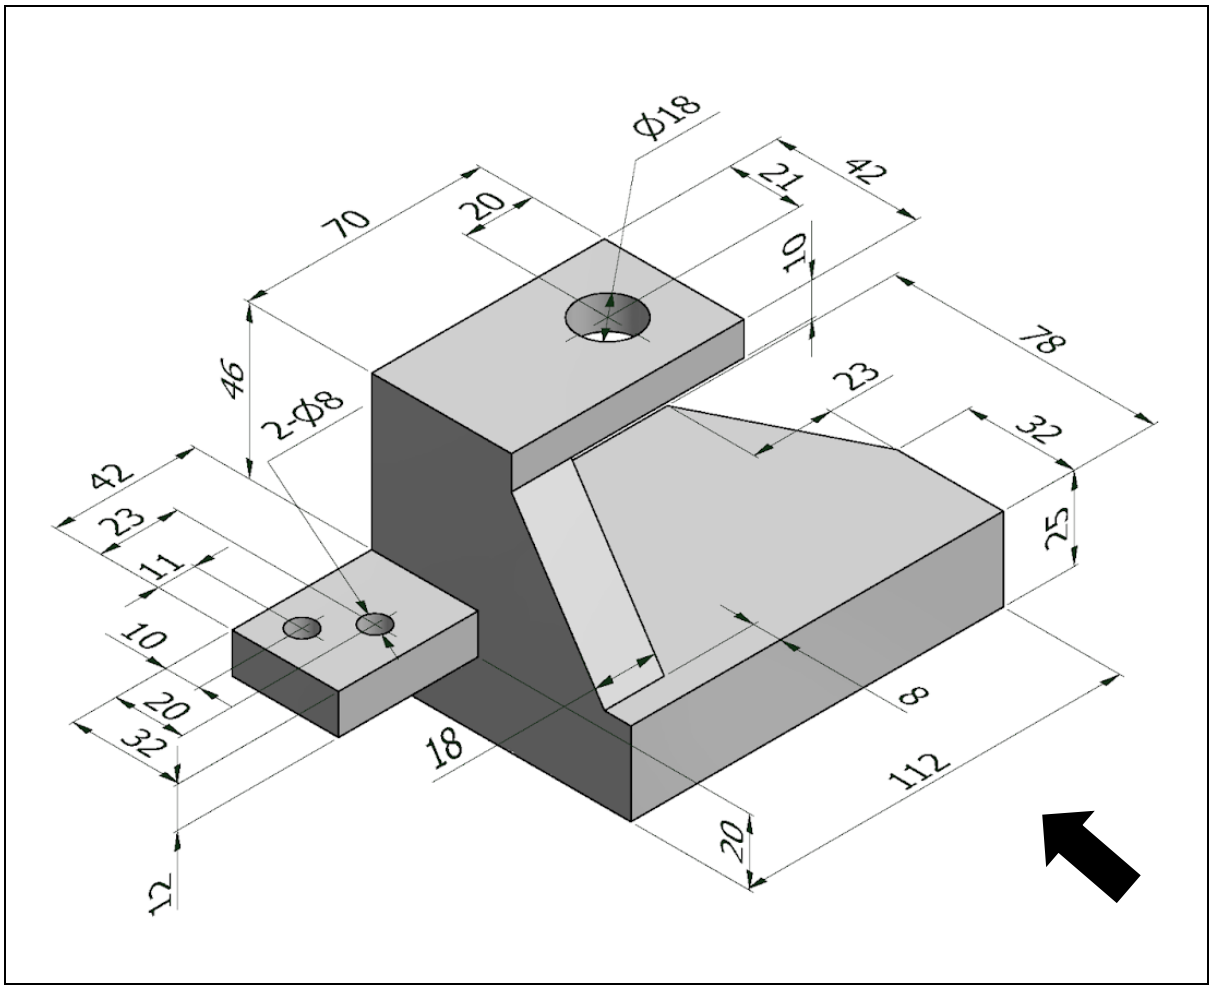

Figure 1

QUESTION B

Produce the 2D drawing in the Figure 2 below using AutoCAD. Provide the proper dimensioning. [CLO2-PLO5, 20 marks]

- All the dimensions are given in millimetre. Use the Manufacturing Metric layout for your drawing. Please include your student ID, question number, course code and name in the layout.

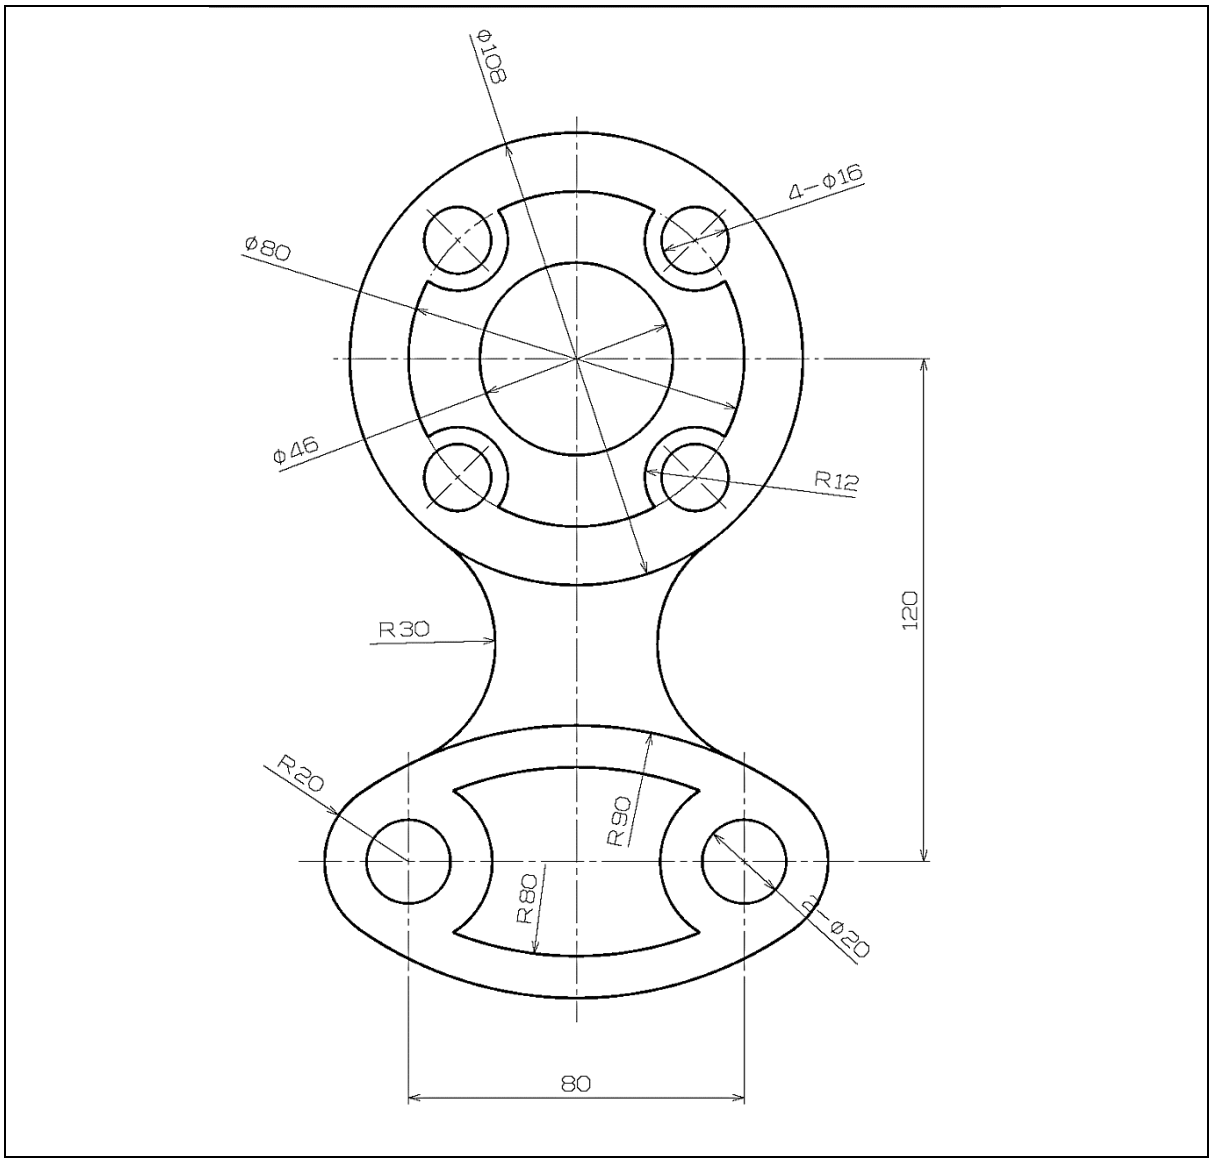

Figure 2

QUESTION C

Draw 3D model for the model as shown in the following Figure 3 by using Inventor. Generate the drawing in layout with the orthographic projections and the 3D model. Please include your student ID, question number, course code and name (COM204 Engineering Graphics) in the drawing layout. Submit your drawing in PDF file. All dimensions are in centimetre. [CLO3-PLO5, 44 marks]
